Albert Einstein was born on March 14, 1879, in Ulm, Germany. He was a scientist and inventor from the early 1900s. Some consider Einstein to be one of the brightest people in the 20th century. He is best known for his theory of relativity and the equation E=mc2. Einstein was brilliant in math and sciences.

Albert Einstein was born on March 14, 1879, in Ulm, Austria.

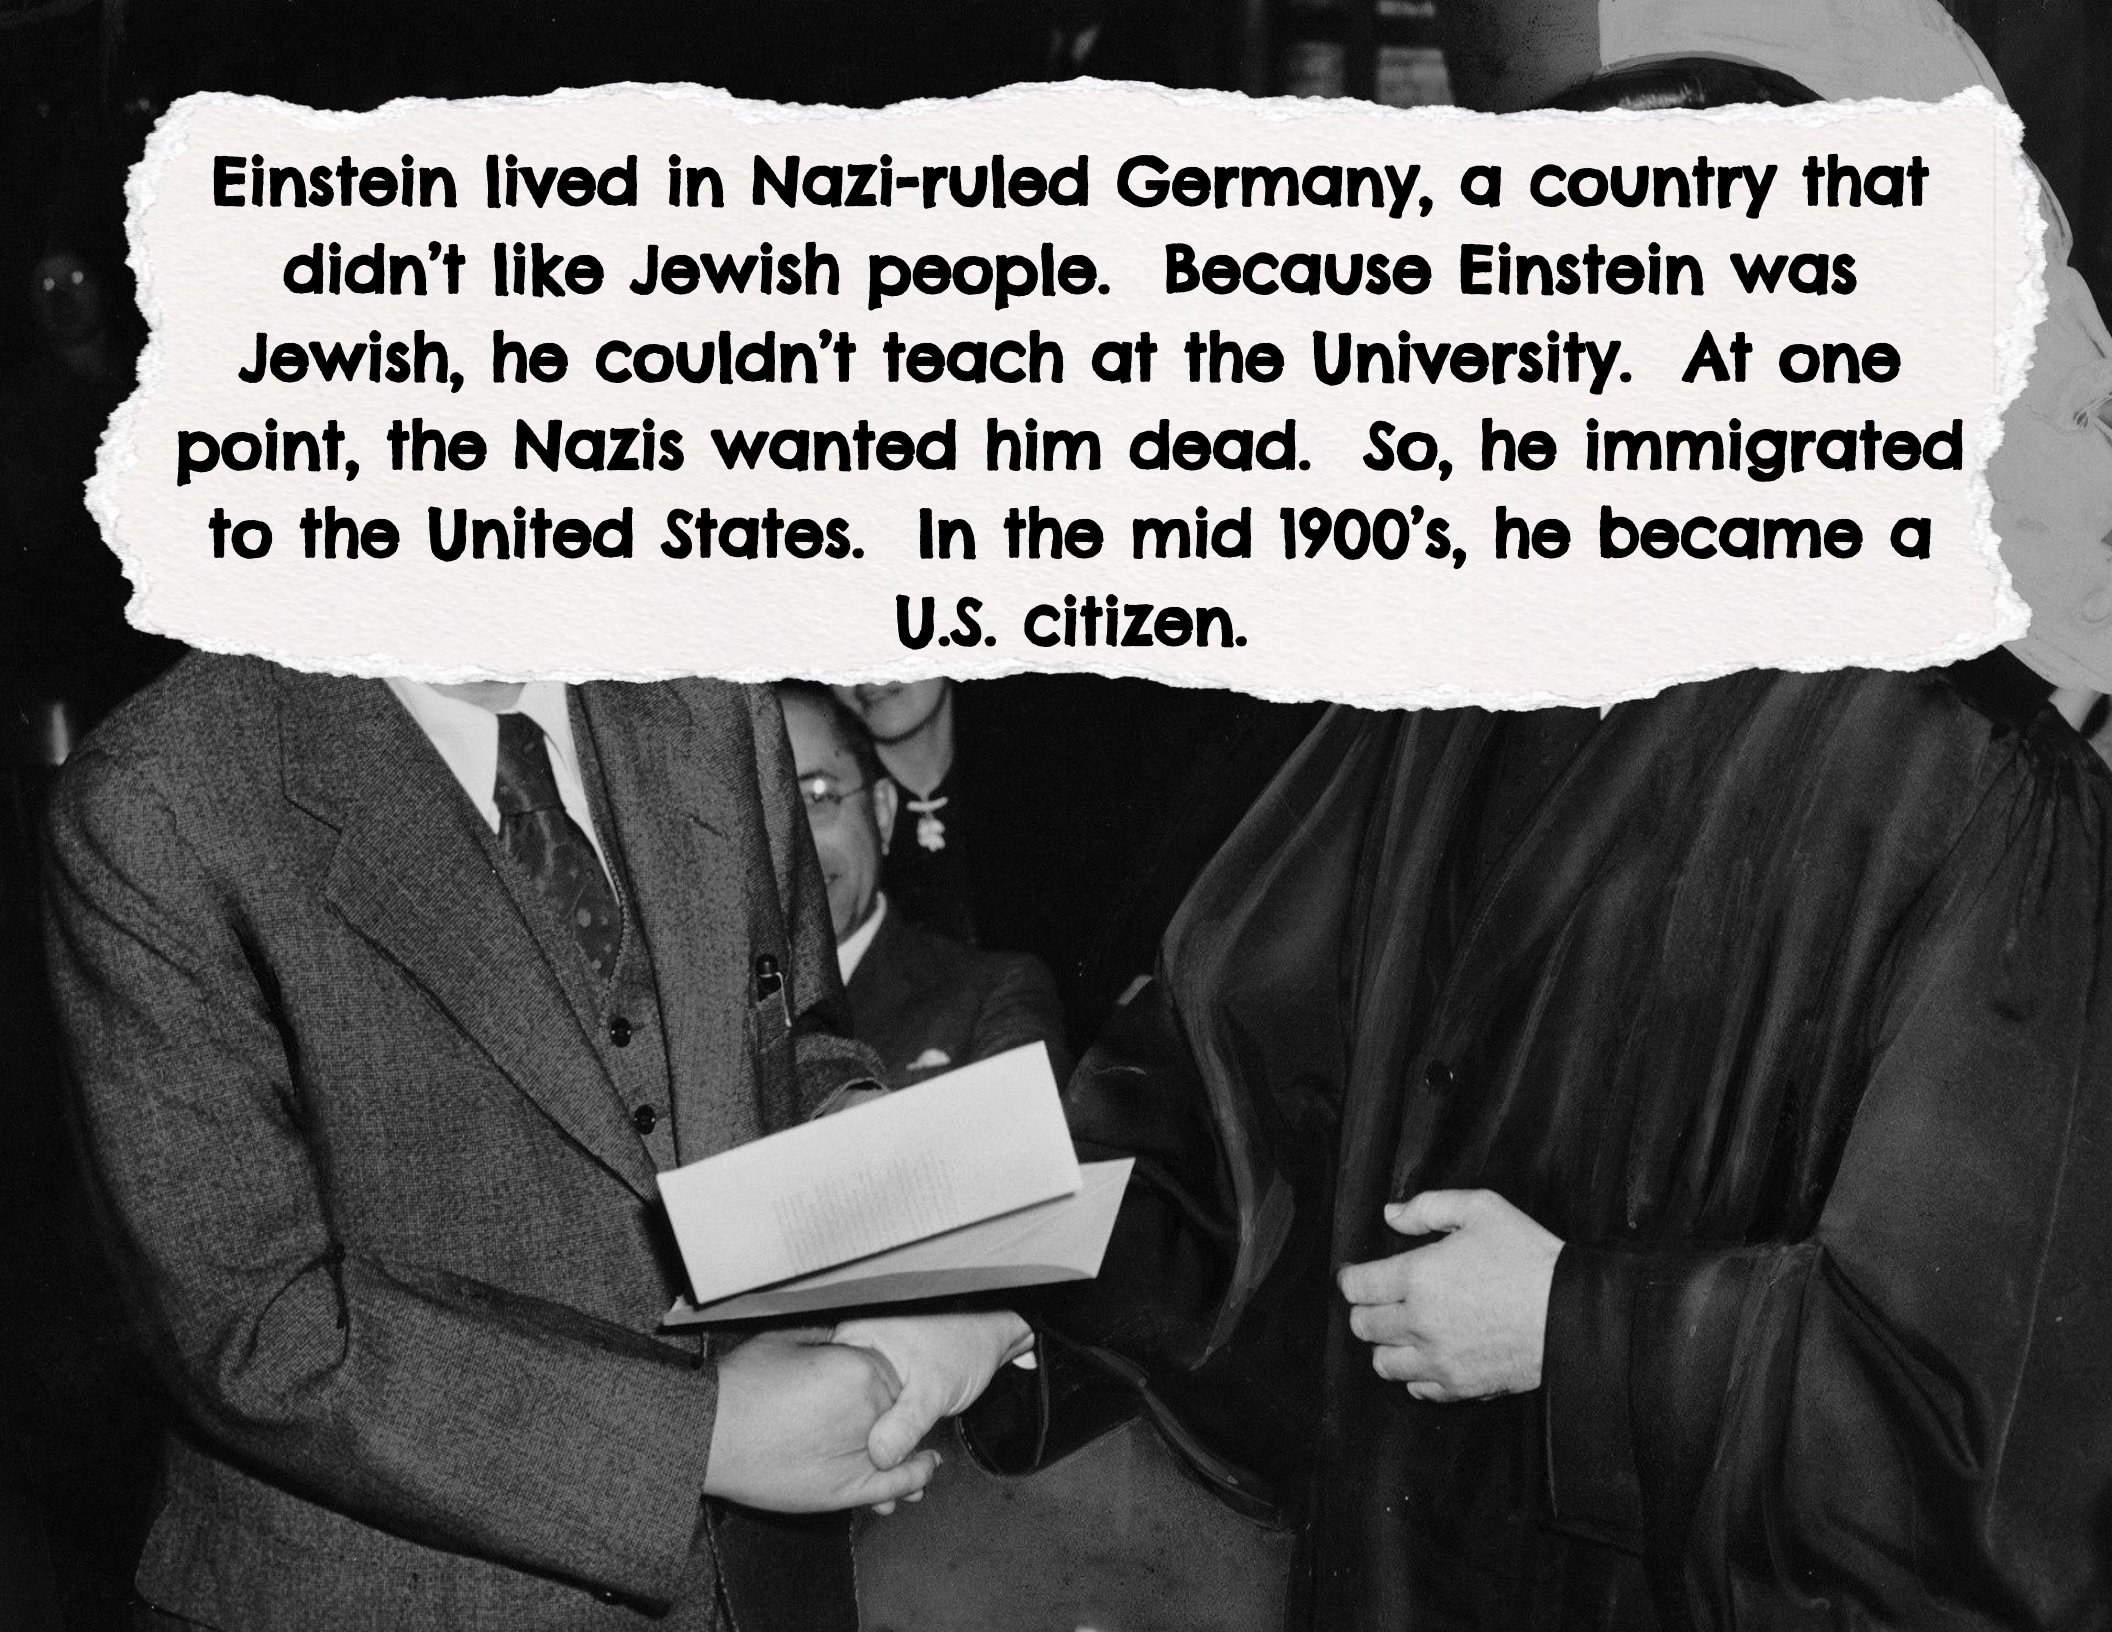

When his dad gave him a compass, he took a keen interest in science. That compass led to his fascination with magnetism. He finished school in Switzerland. In 1895, at the age of 16, Einstein wrote his first scientific paper on magnetism. After graduation, he worked in Switzerland at a patent office. There, he investigated patents for electromagnetic devices.

In 1895, at the age of 16, Einstein wrote his first scientific paper on ____.

A. Earthquakes

B. Electricity

C. Magnetism

Einstein lived in Nazi-ruled Germany, a country that didn't like Jewish people. Because Einstein was Jewish, he couldn't teach at the University. At one point, the Nazis wanted him dead. So, he immigrated to the United States. In the mid 1900's, he became a U.S. citizen.

In the mid 1900's, Einstein became a ____ citizen.

A. French

B. German

C. U.S.
