The original 13 colonies were mostly English territories established in America during the 1600s and 1700s. A colony is an area of land under political control of another country. The 13 colonies are divided into three regions: New England, Middle, and Southern Colonies. The 13 colonies later became the first 13 states of America.

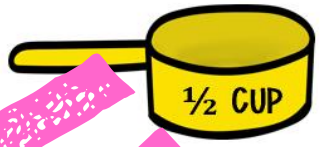

The 13 colonies are former British holdings which broke away from the king in order to become an independent nation.

Some settlers came from Scotland, Ireland, Wales, Germany and other parts of Europe. The 13 colonies were all located along the Atlantic coast in the United States. People came to the colonies for different reasons. Many came for land and jobs. Some settlers came in search of religious freedom. They were being treated harshly for their religious beliefs and wanted a place where they could worship as they pleased. Ultimately, they were searching for a better life.

The landscape of the Middle Colonies was well suited for farming. Farmers in this area raised cash crops like wheat, barley and oats. Cash crops were grown in large quantities to sell. The Middle Colonies produced and exported so much wheat that they became known as the "bread basket of the colonies." Factories produced textiles, iron and paper. Iron ore was used to create kettles, tools, pots, plows, and nails, which were later exported to England.

What was the iron ore used for?

Tools

Nails

Kettles
