

BAKING SODA

Einstein failed his college entrance exam the first time but had the courage to continue working towards his goals. He was persistent and motivated. His wife said he locked himself in a room upstairs for two weeks while he worked on his famous equation. He is best known for his Theory of Relativity and $E=mc^2$.

His formula explained the relationship between energy (E) and mass (m). The theory paved the way for nuclear energy inventions.

How long did Einstein lock himself upstairs for?

2 months

6 weeks

4 weeks

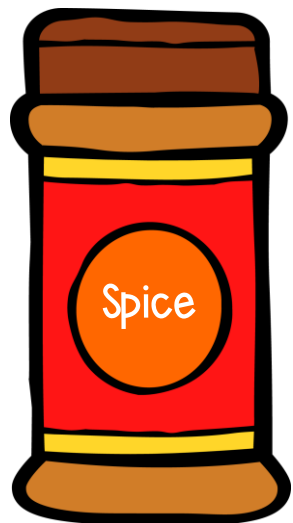

2 weeks

NEXT CLUE:

The next ingredient rhymes with power.
It's white and fluffy but is not sour.

SPICE

Disney created the character and voice of Mickey Mouse. The first Mickey Mouse cartoon was called Plane Crazy. In the cartoon, Mickey and some animal friends attempted to create their own airplane. Disney was inspired by Charles Lindbergh's solo flight across the Atlantic Ocean.

The first animated silent film featuring Mickey was a flop and failed to find distribution. Disney didn't let that stop him from finding success.

What was the name of the first Mickey Mouse cartoon?

Crazy Plane

Flight Envy

Plane Crazy

Plane Flight

NEXT CLUE:

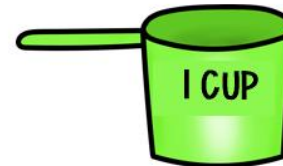

One more ingredient that's in a shaker is the opposite of pepper, used by a baker.

SALT

When sound was made available, Disney made a short film called Steamboat Willie. The cartoon was an instant success and boosted his career. In the early 1950's, Walt had an idea to create a theme park called Disneyland with rides based on his movies. Today, the park is one of the most popular vacation destinations in the world. Disneyland cost \$17 million dollars to build and opened in 1955. He believed that it was "kind of fun to do the impossible."

How much did it cost to build Disneyland?

\$11 million

\$13 million

\$15 million

\$17 million

NEXT CLUE:

The next ingredient is colorful and bright, they get mixed on every bite.

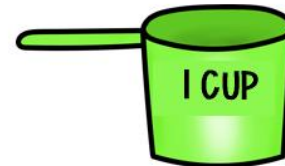

SUGAR

Edison set up his first lab when he was just 10 years old in his parent's basement. His first invention was the electric vote recorder. Edison's inventions include the telegraph, a stock ticker, the phonograph, alkaline batteries and the kinerograph. His most famous invention was improving the light bulb.

Many of Edison's inventions still have an impact on our lives today.

Where did Edison set up a lab when he was 10 years old?

Parent's basement

Bedroom

Parent's attic

Dining Room table

NEXT CLUE:

A yummy liquid flavor is what the recipe calls for, but be careful not to over pour.
