HOW IT WORKS

ENGAGING READING COMPREHENSION PRACTICE!

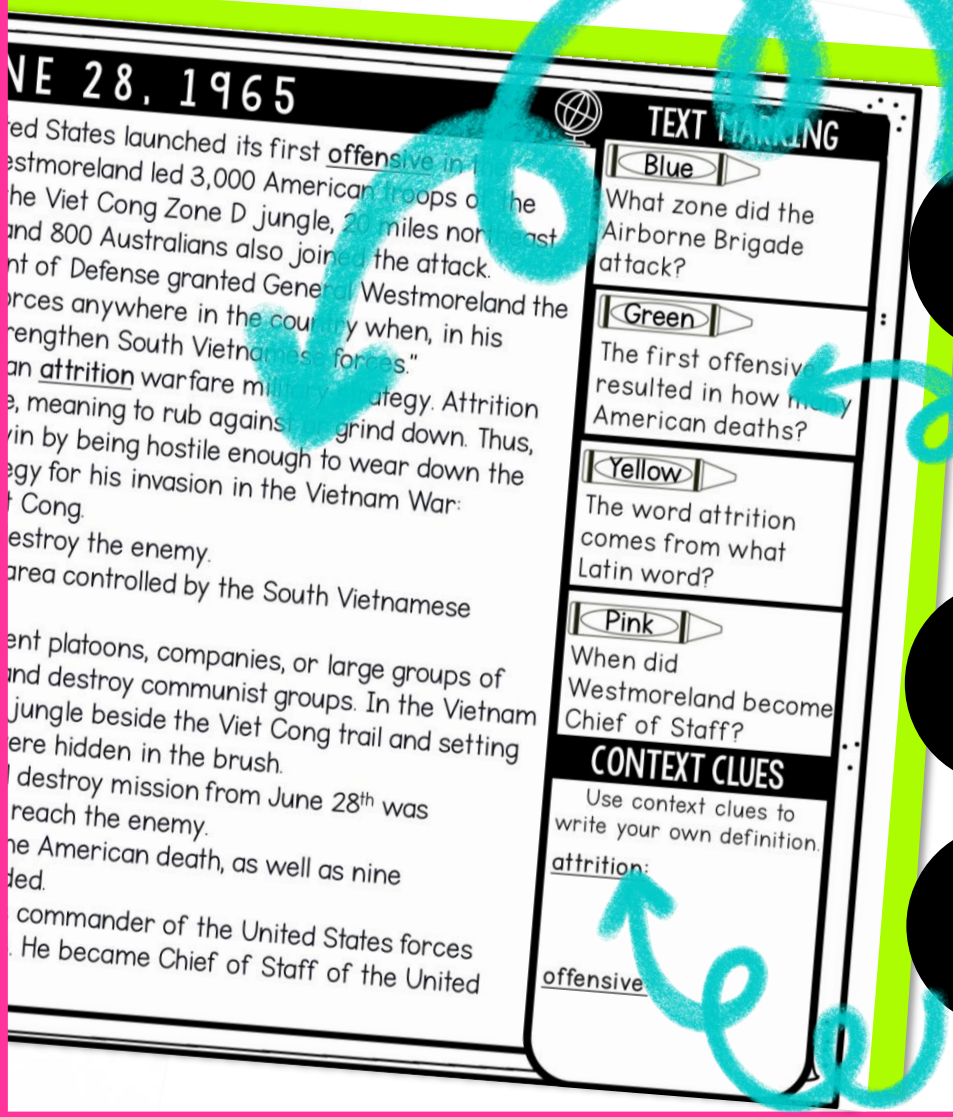

1. Students work individually (or in pairs) and read the "Article of the Day."
2. Students answer the questions and find text evidence that supports their answer.
3. Students will use context clues to define higher-level vocabulary words (2 per passage).
4. Students will take a deep dive into the text and complete a graphic organizer to summarize and reflect on what they learned (if time permits).

Each day includes

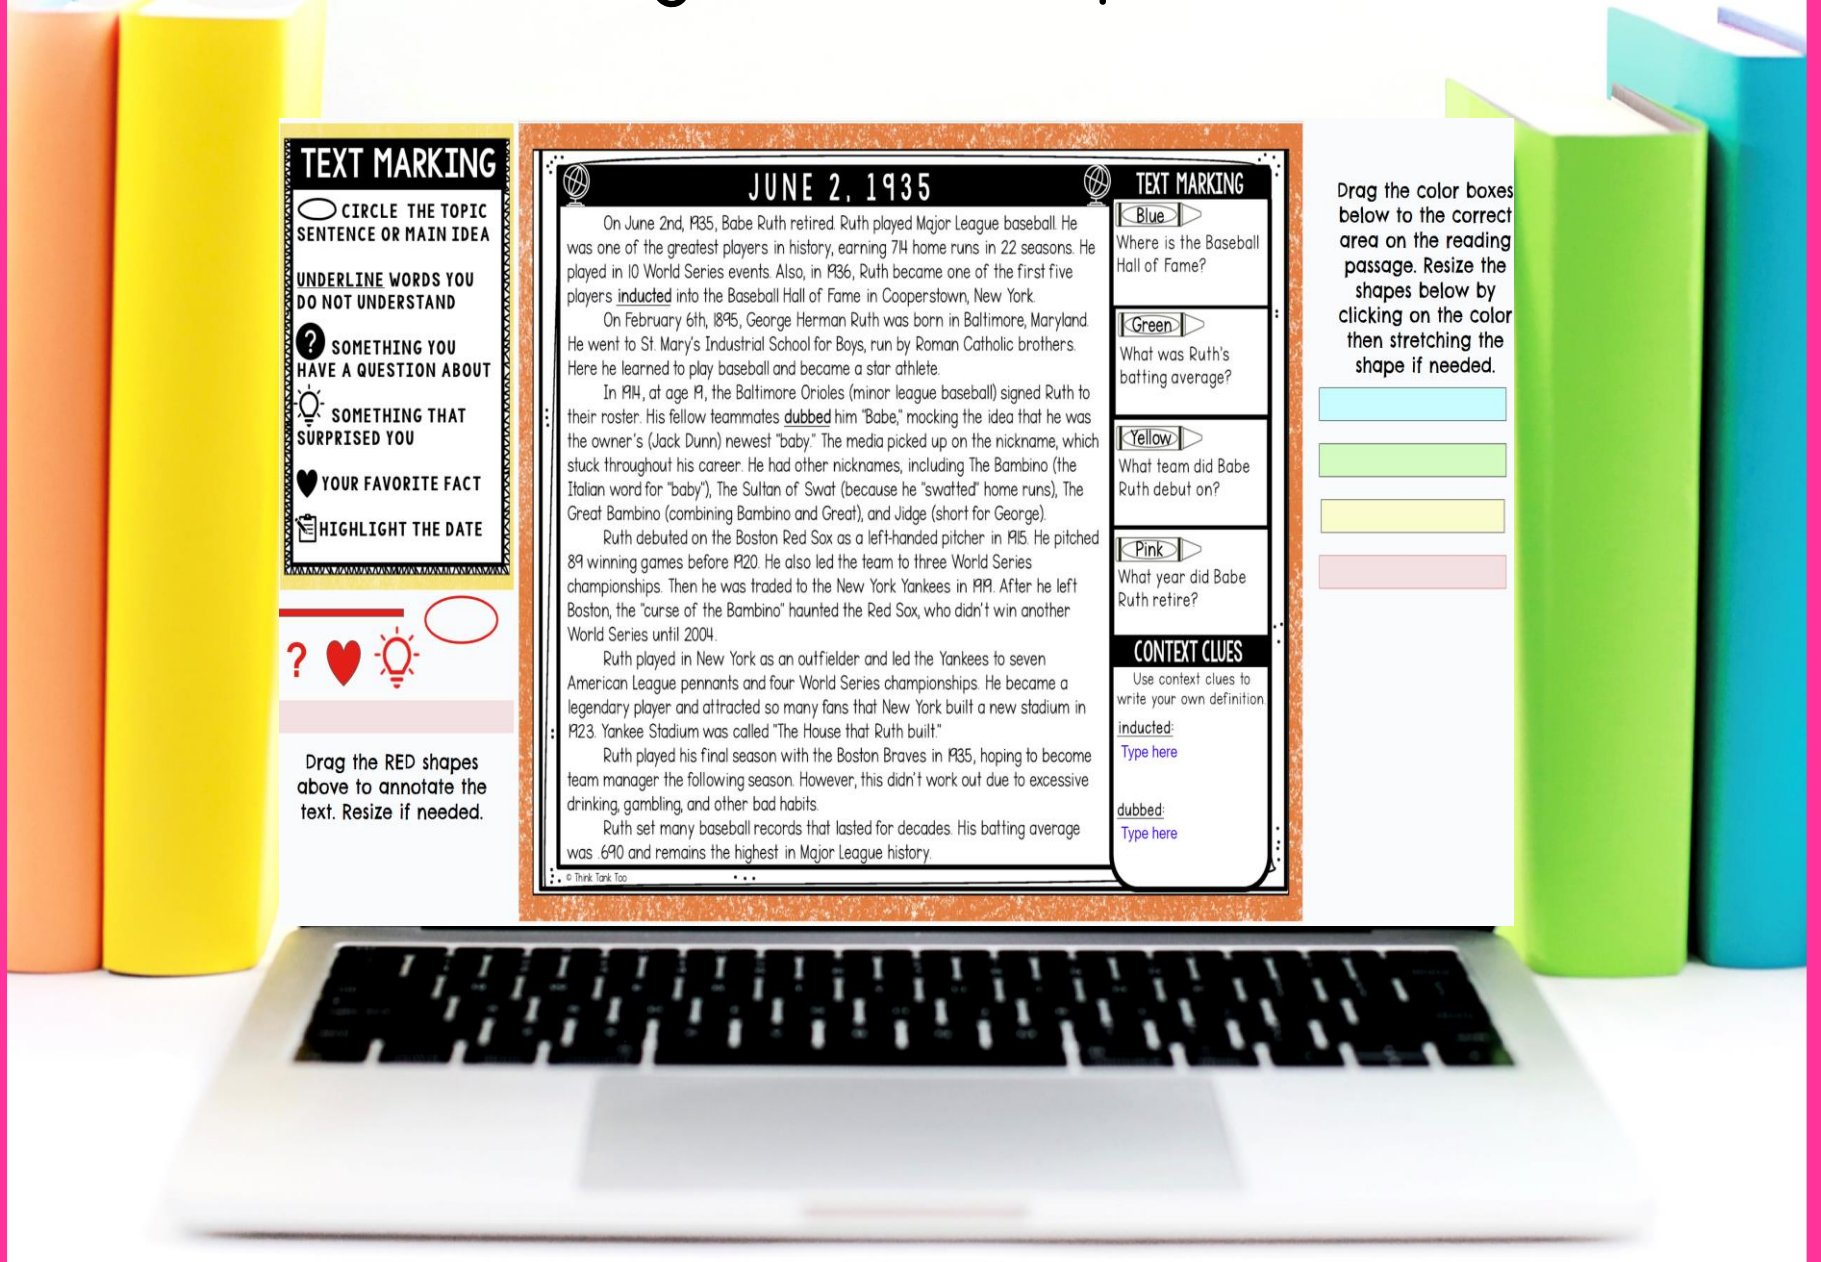

COMMON CORE ALIGNED!

1. Reading passage that explores historical events, people, or places on the same day in previous years
2. 4 Text marking questions
3. 2 Vocabulary words to define using context clues

Before You Assign...

1

Determine how much time you want to spend on the article. You can choose to print and do JUST the one-page article (bellringer) with no graphic organizer.

You can choose to display the article on the overhead and have students use the 'Quick Jot' sheet found on page 50 to save paper.

You can extend the activity by pairing the article with a graphic organizer and take a deep dive into the nonfiction text.

2

Decide WHICH graphic organizer you want to use that best aligns with the article. For example: some articles would benefit from a "cause and effect" graphic organizers, while others may not. There are NINE choices found at the END of this PDF.

You could also print a few copies of EACH one and allow students to CHOOSE which one they want to complete. I find that allowing student options increases productivity.

3

Go over expectations for the activity. Show your students how to annotate text or use the graphic organizer.

Provide an example of "how" to use context clues to define an unknown word.

PLEASE NOTE: How you choose to set it up in your classroom is up to you! There is no wrong or right way!
