

AMELIA EARHART

CUBE CODE

STATION 2:
First, number ALL the paragraphs on your reading passage. Then, read each statement below and determine which paragraph NUMBER the statement can be found in. Lastly, eliminate ANY answer where the answer was found in an EVEN numbered paragraph, leaving only ODD numbers as your final code (in the order of questions). Paragraph numbers MAY be used more than one time or not at all.

STATION 3:
Read each statement below and determine if it is true or false. If the statement is true, color or shade the coin that corresponds to the statement. If the statement is false, cross out that coin value. After you are finished add the TOTAL of ALL TRUE coin values. The code has been provided for you. If the total is 625, a 6 in the first box, the 2 in the second box and so on.

AMELIA EARHART
Amelia Earhart was a female American aviator. Earhart, nicknamed Lady Lindy, was born in Kansas on July 24, 1897. She is most known for being the first woman to fly solo over the Atlantic Ocean. Amelia was an advocate for women's rights and opportunities and had a keen fascination with aviation.
From an early age, Amelia was very adventurous. At the age of 7, she built a small roller coaster with her sister Muriel, and claimed it was like "flying". The sisters weren't into "girly" things. Instead, they played sports - football, basketball, and baseball. They also collected bugs and frogs, and even shot a rifle.

THINK TANK

STATION 1:

Use your reading passage or deductive reasoning skills to determine the missing words in the paragraph below. Each missing word has a corresponding NUMBER. The 4-digit code will be the NUMBER of each missing word in the same order in which they appear in the paragraph.

STATION 2:

First, number ALL the paragraphs on your reading passage. Then, read each statement below and determine which paragraph NUMBER the statement can be found in. Lastly, eliminate ANY answer where the answer was found in an ODD numbered paragraph, leaving only EVEN numbers as your final code (in the order of questions). Paragraph numbers MAY be used more than one time or not at all.

STATION 3:

Read each statement below and determine if it is true or false. If the statement is true, color or shade the coin that corresponds with that question. If the statement is false, cross out that coin value. When you are finished add the TOTAL of ALL TRUE coin values. One digit of the code has been provided for you. If the total is 625, a 6 would go in the first box, the 2 in the second box and so on.

STATION 4:

Use your reading passage to determine the combination to the 4-digit lock. You're going to have to use your critical thinking skills and do a tiny bit of math. Pay attention because the "clues" below are NOT in order.

STATION 5:

Answer each multiple choice question below. Then, count the number of times you used each letter answer (ABCD) to reveal your 4 digit code. Answer options may be used more than once or not at all. If a letter option is not used, simply put a zero in the box.

STATION 6:

Reread the passage and write the main idea in your own words. Then, add TWO supporting details that back up your main idea or topic sentence.

WHAT'S INCLUDED?

- ✓ READING PASSAGE
- ✓ 6 STATIONS
- ✓ TEACHER GUIDE
- ✓ STATION CARDS
- ✓ ANSWER KEY
- ✓ STUDENT DIRECTIONS
- ✓ TEXT MARKING OPTION
- ✓ ALTERNATE STATION
- ✓ ASSEMBLY TIPS

6 STATIONS

STATION 1:

Use your reading passage or deductive reasoning to determine the missing words in the paragraph below. The missing word has a corresponding NUMBER. The 4-digit code will be the NUMBER of each missing word in the same order in which they appear in the paragraph.

1	Howland	4	1947	7	100
2	Leeward	5	equator	8	South P
3	1927	6	1937	9	1,000

Her next goal was to be the first person to ever fly around the world. She began navigating the flight from California to Hawaii. They departed from California on May 20, 1931. The engine Lockhe... to Miami, Florida. South America. East Asia. On July 2nd, they were only 7,000 miles away. On July 2nd, the duo departed. It was 2,600 miles away because coral reefs were challenging to see from above. Itasca, a U.S. Coast Guard ship, had radio contact with Amelia. How...

SUPPORTING DETAIL #2

STATION 4:

Use your reading passage to determine the combination to the 4-digit lock. You're going to have to use your critical thinking skills and do a tiny bit of math. Pay attention because the "clues" below are NOT in order.

The LAST number of the lock is the year Earhart earned her National Aeronautics Association license MINUS 1920.

The SECOND number of the lock is

4 DIGIT CODE

STATION 5:

Answer each multiple choice question below. Then, count the number of times you used each letter answer (ABCD) to reveal your 4 digit code. Answer options may be used more than once or not at all. If a letter option is not used, put a zero in the box.

On June 17, Earhart departed Canada as a passenger on what seaplane?

- A. Electra
- B. Itasca
- C. Canary
- D. Friends

What U.S. Coast Guard ship had radio contact with Amelia Earhart?

- A. Itasca
- B. Polar Star

Where was Earhart born?

- A. Howland
- B. Kansas
- C. California
- D. Kentucky

Where did Earhart die?

- A. Miami
- B. South America
- C. Africa
- D. All of the above

ELIMINATE ALL EVEN NUMBERS TO DETERMINE THE FINAL CODE.

4 DIGIT CODE

SAMPLE CUBE

STATIONS

STATION 1	Students will determine the missing words in the paragraph to reveal a 4 digit code.
STATION 2	Students will number the paragraphs and browse the passage to determine where the answers can be found (paragraph number). After eliminating EVEN numbers, a 4 digit code will be revealed.
STATION 3	Students will read each statement and determine if it is true or false. They will then ADD all TRUE values to find the 4 digit code.
STATION 4	Students will do some basic math here, read the passage to find the answers and then determine the 4 digit code.
STATION 5	Students will answer 6 multiple choice questions which lead them to a 4 digit code based on the number of times they used each "answer".
STATION 6	Option 1: Main idea writing activity Option 2: Color and add topic
TEXT MARKING	OPTIONAL: A color code chart is included in case you want students to mark the text citing evidence of where they found their answers.

**STUDENTS WILL
USE THE SAME
READING
PASSAGE AT
EACH STATION
SEEKING
ANSWERS AND
TEXT EVIDENCE.**

HOW IT WORKS

ENGAGING READING COMPREHENSION PRACTICE!

- 1** Students work individually (or in pairs) and visit 6 stations, grabbing one side of their cube at each station.
- 2** Students will answer the questions (found directly in the passage) on their cube sheet before assembly. Students will revisit their reading passage at EACH station!
- 3** Students will reveal 4-digit codes to move on to the next station. When they finish all stations, they can color and assemble their cube.

STATION

Read each statement below and determine if the statement is true, color or shade the corresponding box. If the statement is false, cross it out. When all questions are finished add the TOTAL of ALL TRUE statements. A 4-digit code has been provided for you. If the total is 75, the 1 in the first box, the 2 in the second box and so on.

A 75	A. In spring of 1932, Amelia flew across the Atlantic Ocean.
B 25	B. On June 29th, they reached Liberia, Guinea.
C 50	C. Earhart nicknamed her bright yellow airplane "The Lemon."
D 100	D. Earhart's nickname was Lady Li.
E	E. The flight from Canada to Ireland took 19 hours and 18 minutes.
F	F. What happened to her still remains one of the greatest unsolved mysteries.
G	G. Earhart co-founded an organization called the Eighty-Eights.
H	H. Earhart quit school to become a Cross Nurse's Aide in Toronto, Canada.

COMBINATION

Each Cube Code is a winning combination of:

- ☒ stations and movement
- ☒ close reading
- ☒ comprehension skills
- ☒ coloring and stress relief
- ☒ secret codes
- ☒ cut and paste
- ☒ citing evidence
- ☒ critical thinking

Everything a teacher dreams of wrapped up into one FUN and engaging activity!

BENEFITS

THINK OUTSIDE THE BOX!
